

## **July 25, 2013 CART Update to the Broadway Citizens Task Force**

*Submitted by Doug Mance*

- The next CART meeting is scheduled for **Noon, 7/31/2013, at PAG headquarters**, 177 N. Church Avenue, 5<sup>th</sup> Floor conference room. You are invited and encouraged to attend.
- As the CTF continues to define all of its cross section concept options, I would encourage you to now start considering what is truly feasible within the context of the CART and the RTA Board fiduciary obligations. I will be offering what information I can in this regard moving forward. I believe keeping all of your options on the table for now is a good thing, knowing you will be reducing those options over time based on the information and evaluations that you develop through your process.
- You have experienced (with me being one) three CART member viewpoints and their respective viewpoints on their oversight responsibilities at your meetings. (The others include Bob Cook and Bill Poorten.) There are twenty-seven more of us. I will work on the CART side of things to help my committee understand the cross-section options that your group defines.
- If any of you do have questions or concerns about me or my role, I am very available and open. Please simply call on me with your concerns.
- You will have a written executive summary of the 7/31/2013 CART meeting at your next meeting.
